Artist: (Stray Kids) Song: (The Story That Will Never End)(English Translation) Album: Extraordinary You OST Part 7 Year: 2019 Lyrics: Do you remember the day we fist met A shy smile and the sunlight pouring down I can tell just by looking at your eyes We are one, we are one You are me When you're smiling or when you're tired NI always protect you, for you I'll go against time And show up in front of you I believe Even if the world changes Will you promise me that we won't change In this beautiful place The memories of loving you then Will be a story that will never end It'll shine Never say goodbye Because you and I are one Because we might walk together in the same dream Just Ike right now you by my side You're making me smile Let's go further than tomorrow that's longer than forever I love you in the dawn where you can't deep out of worry I looked at you, and I swore to heaven Until we reach the dream is so far away Don't let go of my hands You're lost for a while, even if you're lonely Listen to my voice that's a little hidden. If you call me, anywhere, I'll find you I decided not to cry On a stormy day I hug you warmly hugs I've decided to protect you The love you've given me remains And I have the power to live You don't cry, the goodbye Never cry, only when we meet again. This is the story that we've created I'm gonna make the endless day beautiful I want to live a glorious dream forever And ever in you Never say goodbye Because you and I are one Because we might walk together in the same dream Just Ike right now you by my side You're making me smile Let's go further than tomorrow that's longer than forever I love you. The phrase 'I love you' might feel a little bit plain but I can't never save it I care more about you than anything else in the world Your own tomorrow, your own tomorrow Waiting for tomorrow just for you It's not going to be over all day Make a story that has an ending like a title Just Ike right now you by my side You're making me smile I'll be forever My long time love Never say goodbye Because you and I are one Because we might walk together in the same dream Just Ike right now you by my side You're making me smile Let's go further than tomorrow that's longer than forever I love you.
